Dyspepsia and Liver Com-

ARE universally acknowledged to have totally eclipsed the pretensions of every other remedy; and superceded the necessity of every other mode of treatment, wherever the above diseases are found to exist, as well as in enlargement of the portation to market, commission, interest and Spleen and in Jaundice.

Among the symptoms of Dyspepsia and Liver Complaints, are flatulency, sourness or burning in the stomach, melancholy, irritability, disagreeable taste in the mouth ; great irregularity of appetite, which is sometimes voracious, and at other times greatly deficient, thirst, fetid breath, nausea weakness of the stomach, acid eructations, palpitation, drowsiness, irregularity of the bowels, pressure on the stomach after meals, pain in the head, dizziness or vertigo; confusion of mind, attended with loss of memory, a gnawing in the stomach when empty, chillness, affection of sight and hearing, pain and weakness in the back, languor, disturbed sleep, cold feet and hands, tremor, uneasiness in the throat, cough, pain in the side or breast, &c.

DR PETERS VEGITABLE ANTI BILLIOUS PILLS These Pills need but a trial to recommend

They are purely vegetable and well calculated for the removal of all Billious complaints.

They act specially upon the Liver, when in bile, through the influence of the excernent func. tion, which, if suffered to remain in the system, would produce either Jaundice, Liver Complaint, Billious Fever, Fever and Ague, or some other grievous bodily affliction. In all cases of torpor of the bowels, they act like a charm. In recent cases of Dyspepsia, they are a certain cure. Many persons who were subject to violent attacks of sick head ache, have been much benefitted, and several perfectly cured in a few weeks by their use. They are highly recommended as a preventive and cure of Billious complaints. Persons who are subject to that distressing complaint, sea sickness, by taking a portion or two of them a few days previous to embarking on board the vessel, will be almost certain to escape it. Females can use them at any period, without infamily should be without these Pills; a portion of action of the stomach and bowels, thus suffering to be absorbed and mingled with the blood, unas- assail our institutions and prosperity. OF THE AMERICAN LITERARY COMPANY HE object of this Company is to elevate the general standard of literature in the United States, by introducing into common use, an

The plan is, the organization of a comp a with sufficient capital to publish all books written by native authors, which may be approved by a committee of publication, at the risk of the company, who shall pay over to the authorall profit on the sales, after deducting the printer's charges and incidental expenses.

It is proposed to manufacture the paper used printing, and thus to save the expense of drying it for market, putting it into bundles, transguaranties, equal at least to twenty per cent.

A greater saving can be made by the employ ment of boys in composition, printing and bind, ing. This, with the profits on periodicals, reprints, and elementary books, will secure to the

stockholders a good dividend. By requiring each clerk, foreman, papermakerjourneyman, proof-reader, and all others connected with the Company, to hold a certain amount of stock proportioned to their salary, which, when it has not been paid in advance, will be liquidated by a sinking fund out of their earnings, and held subject to be assigned to the successor of each, upon a condition that such successor shall be allowed to pay for it by a deduction from his earnings, each person attached to the company becomes a stockholder, and, to the extent of his dates. stock, interested in the success of the institution. This feature will be rigidly enforced, and in case any one in the employment of the Company shall for any cause, be dismissed or leave its service, his stock will be assigned to his successor.

Agencies will be established in the large cities, where the Company's books can always be had at the wholesale prices. Booksellers, and country merchants who sell books, now pay a profit to the paper maker, another to the printer, and a third to the publishers. Those who subscribe stock in this Company will receive books at their cost, rating the printing at the New York prices, to the amount of the stock so subscribed; it being understood that the dividend on their stock, to the amount of six per cent. per annum only, torpid condition, carrying off a large quantity of shall be charged as interest and that all dividend above six per cent. shall be paid to such stockholders. The Company thus guarantee to booksellers a dividend of 6 per cent. per annum on the amount of their stock, and the paper maker's profit, the printer's profit, and the publisher's profit,

over and beyond their own profit as bookse'lers. The advantage to the Company is, that all the have declared universal emancipation, and remember the influence which early impressions have on the matured mind, all must see the importance of guarding against the admission into our elementary books of any matter which may

mislead the feelings or judgment. Inasmuch as the sale of school books is much greater, and the value and profit depends much at home and abroad. more on the publisher, the Company will divide the profit with the author or compiler on all elementary books. This arrangement will place all authors and compilers on the same footing; and inasmuch as the company will have no interest in the copy right beyond a contract for the exclusive right to publish until a better or improved book is produced by some other author, the company will be always inviting, and in fact offering a premium for better and improved books. As it now is, every author encounters the competition of publishers who have the copy-rights of rival books. This Company will be an impartial um. pire, ready to place each now competitor on 'the same footing as the most favored party. Its object being to publish the best book, and the profit being the same on either, the preference will always be, and Directors will be held in Columbia, South Carolina, on the 30th of November. adelphia Saturday Courier, induces the editors to commence the publication, under the above title, of a quarto edition of their popular journal, so long known as the largest Family Newspaper in the United States with a list of near TWENTY-SIX THOUSAND SUB-SCRIBERS. The new feature recently introduced of furnishing their readers with new books of the best literature of the day, having proved so eminently successful, the plan will be continned. Six volumes of the celebrated writings of Captain Marryatt, and sixty-five of Mr. Brook's valuable Letters from Europe, have already bein published without interfering with it's news and miscellaneous reading. The Courier is the lar-gest and cheapest family newspaper ever issued in this country, containing articles in Literature Science, and Arts; Internal Improvement; Agriculture; in short every variety of topics usually introduced into a public journal. Giving full accounts of sales, markets, and news of the latest

It is published at the low price of \$2. For this small sum subscribers get valuable and entertaining matter each week enough to fill a common book of 200 pages, and equal to 52 volumes year, and which is estimated to be read, weekly by at least two hundred thousand people, scattered in all parts of the country, from Maine to Florida, and from the sea board to the lakes .-The paper has been now so long established as to render it too well known to require an extended prospectus, the publishers, therefore, will do no more than refer to the two leading daily political papers of opposite politics. The Pennsylvanian says—"The Saturday Courier is the largest, and one of the best family newspapers in the Union;" the other, the Inquirer and Daily Courier, says, "It is the largest journal published in Philadelphia, and one of the very best in the United States." The New York Star says-we know nothing more liberal on the part of the dormant talents of our country, than their unexam-
